

DEALERSHIP COMPLIANCE & AUDITS

Compliance to Ford Key Code Policy

- Dealerships are expected to be in full compliance
- Authorized users from your dealership are presented with the [Key Code Process Terms of Agreement](#) before retrieving a vehicle key code.
- These users must indicate their acceptance of these Terms, thereby confirming that the dealership is acting in compliance with the Policy prior obtaining a vehicle key code.

About Audits

- Ford Key Code Dealership Audits provide Ford the ability to evaluate compliance to the process.
- Thirty dealerships are selected each month for the audit.
- Letters notifying dealers about the audit are sent out via US mail and email.
- The notification letters contain a **DUE DATE** and the **VIN(s)** being audited.
- Each dealership will be audited on 1-5 VINs
- Dealerships must provide copies of the appropriate Ownership Documentation (see below) for each VIN.
- To ensure timely/accountable receipt, documentation should be sent via FedEx, USPS, or UPS with proof of signature required.

Audit Results

- Possible results are “PASS” or “FAIL”.
- Responses that aren’t received by the **DUE DATE** on the notification letter result in a “FAIL”
- Responses that don’t include the proper ownership documentation result in a “FAIL”
- A letter and email will be sent to each dealership informing them the results of the audit.

Failing an Audit

- Responses that aren’t received by the **DUE DATE** on the notification letter result in a “FAIL”
- Dealerships with an audit result of “FAIL” will have restricted access to key codes such that only the Dealer Principal or General Manager will have access to key codes.
- Dealers already in restricted access who are re-audited and receive a “FAIL” on the re-audit will no longer have the ability to access new vehicle inventory key codes.

Dealers in Restricted Access

- Dealers in restricted access will be re-audited within 3 months of their failed audit.
- Dealers in restricted access who “PASS” the re-audit will have full access restored to authorized users (up to four people).
- Dealers in restricted access who “FAIL” the re-audit will no longer have access to key codes in their new vehicle inventory.

OWNERSHIP DOCUMENTATION REQUIRED

Customer or Business owned Vehicle	Dealer owned used Vehicle
• A completed and signed Vehicle Ownership Verification form	• A completed and signed Vehicle Ownership Verification form
